SAI GUGULOTHU

Software Developer | AI/ML & Computer Vision | Cybersecurity | Accessibility Engineering

Email: saig21851@gmail.com | GitHub: github.com/Saigugulothu0309 | LinkedIn: linkedin.com/in/sai-gugulothu

EDUCATION

Vignan Institute of Technology and Sciences | Hyderabad, Telangana
Bachelor of Technology in Computer Science and Engineering - Data Science | 2023 - 2027

TECHNICAL SKILLS

Languages & Core:	Python, JavaScript, TypeScript, HTML5, CSS3, SQL
Frameworks & Web:	React 18, Next.js 14, FastAPI, Flask, Vite, Tailwind CSS, Express
AI, ML & Vision:	scikit-learn, MediaPipe, OpenCV, Isolation Forest, Feature Engineering, NumPy, Pandas
Security & Network:	Scapy packet analysis, Phishing detection, WHOIS telemetry, Network logging
Tools & Databases:	PostgreSQL, SQLite, Prisma ORM, SQLAlchemy, Docker, Git, Vercel

FEATURED PROJECTS

DualTalk - Real-Time Sign Language Recognition & Speech Platform

Purpose: Recognizes configured hand gestures and renders them as text and speech for assistive communication.

Contribution: Implemented webcam hand tracking, landmark feature extraction, ML/rule classification, temporal sentence building, and text-to-speech/WebSocket output.

Technologies: Python, MediaPipe, OpenCV, scikit-learn, WebSockets

CyberShield - AI-Powered Phishing Threat Detection System

Purpose: Assesses submitted URLs for phishing risk using URL, domain, and page signals.

Contribution: Implemented 13 URL features, connected a scikit-learn classifier with WHOIS/IP checks, and built a Flask dashboard with mapping and SQLite scan history.

Technologies: Python, Flask, scikit-learn, Pandas, SQLite

CERTIFICATIONS

Cyber Security Virtual Internship | Deloitte | August 2024
AWS Cloud Computing | Amazon Web Services | November 2024
Frontend Development with HTML5 & CSS3 | Telangana Academy for Skill and Knowledge (TASK) | August 2024

Available for freelance development and full-time engineering roles. Contact: saig21851@gmail.com
